## REASONS FOR ALLOWANCE

### *Allowable Subject Matter*

1. Claims 2-4, 6-8, 10, 12, and 14-17 are allowed over the prior art of record. Claims 1, 5, 9, 11, and 13 have been canceled.

2. The following is an examiner's statement of reasons for allowance: The feature of claims 2, 4, 10 and 14 directed towards allowable subject matter are the error diffusion circuit in connection to a gray scale data adjustment. Claims 2 and 10 focus on the detail of said error diffusion circuit comprising arithmetic circuitry, and Claims 4 and 14 comprise said error means in combination with a third range of gray scale data. These features in combination with the other limitations of the claims makes them allowable over the prior art of record. Ishida et al. teaches of an error circuit in combination with adjustment gray scale data, however, Ishida lacks the specifics of the error diffusion circuit arithmetic means as well as the appropriate error adjusted third range of output gray scale data. Therefore said features in combination with the other limitations of the above independent claims are allowable over the prior art of record.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
